## GENERAL INFORMATION

The Judy Nicholson Kidney Cancer Foundation presents the second annual- *A Vision of Hope Kidney Cancer Education Symposium* in partnership with members of the medical community, our patient support group, patients and caregivers to achieve these goals:

- Educate, equip and empower kidney cancer patients on treatment choices
- Optimize the care of the kidney cancer patient through connections & collaboration

Many topics will be discussed that are important for people who are in active treatment, recovering or have been cured. These topics include:

- Therapeutic options
- Common Toxicities of Kidney Cancer Medications
- Surgical Treatment
- Treatment Options for Metastatic Kidney Cancer
- Molecular targets for renal cancer

*A Vision of Hope Kidney Cancer Education Symposium* is fortunate to have a variety of well-respected speakers who will address a variety of topics to empower both patients and caregivers to make a difference in the understanding of their cancer treatment. We will also provide an opportunity for patients, caregivers and physician leaders to dialogue about issues.

*For nursing professionals*, the following objectives will be met:

1. Explain the various therapeutic options for kidney cancer
2. Identify current surgical options and innovations for kidney cancer
3. Identify the potential therapeutic toxicities and challenges of treatment
4. Review additional therapeutic and holistic modalities for treatment and care
5. Collaborate interprofessionally with members of the healthcare team to address treatment of kidney cancer
6. Understand variations in the patient and caregiver experience.
